Environmental vegetarianism is the practice of vegetarianism or eating a plant-based diet based on the indications that animal-based industries are environmentally destructive or unsustainable. The primary environmental concerns with animal products are pollution—including greenhouse gas emissions (GHG)—deforestation, and the use of resources such as fossil fuels, water, and land.

Environmental justice emerged as a concept in the United States in the early 1980s. The term has two distinct uses with the more common usage describing a social movement that focuses on the fair distribution of environmental benefits and burdens. The other use is an interdisciplinary body of social science literature that includes theories of the environment and justice, environmental laws ...
