Public Health Emergency Preparedness and Response Capabilities

Emergency management is the organization and management of the resources and responsibilities for dealing with all humanitarian aspects of emergencies (preparedness, response, mitigation, and recovery). The aim is to reduce the harmful effects of all hazards, including disasters.. The World Health Organization defines an emergency as the state in which normal procedures are interrupted, and ...

United States civil defense refers to the use of civil defense in the history of the United States, which is the organized non-military effort to prepare Americans for military attack. Late in the 20th century, the term and practice of civil defense fell into disuse. Emergency management and homeland security replaced them.
