### **University Personnel | San Jose State University**

Human resources are the people who make up the workforce of an organization, business sector, or economy. "Human capital" is sometimes used synonymously with "human resources", although human capital typically refers to a more narrow effect (i.e., the knowledge the individuals embody and economic growth). Likewise, other terms sometimes used include manpower, talent, labour, personnel, or simply ...

Water resources are natural resources of water that are potentially useful. Uses of water include agricultural, industrial, household, recreational and environmental activities. All living things require water to grow and reproduce. 97% of the water on the Earth is salt water and only three percent is fresh water; slightly over two thirds of this is frozen in glaciers and polar ice caps.

Conflicts and Tensions Between Soft and Hard Models of Human Resource Management. The soft-hard dichotomy in HRM exists primarily within normative, or prescriptive, models of human resource management, rather than in what Legge (1995 b) terms the descriptive-functional or critical-evaluative traditions. The earliest examples where this terminology is used are in the work of Guest and Storey ...

Introduction/Executive Summary. An injury and illness prevention program, 1 is a proactive process to help employers find and fix workplace hazards before workers are hurt. We know these programs can be effective at reducing injuries, illnesses, and fatalities. Many workplaces have already adopted such approaches, for example as part of OSHA's cooperative programs.
