Myths and Truths About Nutrition. Myth: Heart disease in America is caused by consumption of cholesterol and saturated fat from animal products. Truth: During the period of rapid increase in heart disease (1920-1960), American consumption of animal fats declined but consumption of hydrogenated and industrially processed vegetable fats increased dramatically (USDA-HNIS).

First, the good progress is that US closed to "big" trade deal with Mexico to cut the beast in the South. Second, many ask what is the practical solution for what is going in the country becoming forcibly brownized, and exploited by the Jews, where everybody has to work for some strange goals incompatible with the values of the majority of the white people. The answer to the question is ...
