Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...

Question Do you really understand the SEC's Rule 144a? What is it and why do accountants hate it? And here's the real beauty of it: Companies that issue stock under Rule 144a can access America's deep pools of capital without submitting to public-company accounting rules or to the tender mercies of Sarbanes-Oxley.
