Abdominal obesity, also known as central obesity, occurs when excessive abdominal fat around the stomach and abdomen has built up to the extent that it is likely to have a negative impact on health. There is a strong correlation between central obesity and cardiovascular disease. Abdominal obesity is not confined only to the elderly and obese subjects.

A suplex is an offensive move used in both professional and amateur wrestling. It is a throw that involves lifting the opponent and bridging or rolling to slam the opponent on their back.. Professional wrestling features many different varieties of suplexes. The following are among the most common, but many more exist, particularly as the signature techniques of individual wrestlers.
