Reasons for practice. Limited research has been conducted regarding motivations for practicing the fainting
game, although thrill-seeking has been identified as a risk factor, as has the perception that it is a low-risk
activity. Anecdotal reasons stated include:

Choking game - Wikipedia

Game theory is the study of mathematical models of strategic interaction between rational decision-makers. It
has applications in all fields of social science, as well as in logic and computer science.Originally, it
addressed zero-sum games, in which one person's gains result in losses for the other participants.Today,
game theory applies to a wide range of behavioral relations, and is now an ...
