1) Development of world's first large-scale color display system The large-scale displays, which arranged incandescent lamps in a matrix, were utilized to provide common information for a large number of people at outdoor condition.

### **Milestones: Outdoor large-scale color display system, 1980**

Large-scale outdoor projections can elevate an event or space from standard to head-turning, but only if done right. For example, building projection advertising (projecting your corporate logo high above the streets on the side of a building) can increase brand exposure, unless the logo is too faint and distorted to make out.
