A Library of published palliative care and end of life research as an annotated bibliography. In 2014, the National Institute for Health Research in the UK commissioned a project to create a database of research published internationally that informs the practice of palliative and end of life care. The project was completed by key members of the PaPaS CRG (lead by Professor Philip Wiffen).

Palliative care is an approach that improves the quality of life of people and their families facing the problems associated with life-limiting illness, through the prevention and relief of suffering by means

### **Palliative Care Needs Assessment Guidance**

Palliative and end of life care. For all palliative and end of life care services in Scotland, these indicators specify a minimum set of measures that demonstrate person-centred, safe and effective care is being delivered.

### **Palliative and end of life care indicators**

Summary This quality standard addresses palliative care for people who are living with a serious, life-limiting illness, and for their family and caregivers.

### **Palliative Care: Care for Adults With a Progressive, Life**

Patients with life limiting conditions frequently have multiple symptoms. Patient self report of symptoms varies from person to person. Some physical symptoms are readily reported

### **PALLIATIVE CARE NEEDS ASSESSMENT GUIDANCE**

Hospice care is a type of care and philosophy of care that focuses on the palliation of a chronically ill, terminally ill or seriously ill patient's pain and symptoms, and attending to their emotional and spiritual needs.

In Western society, the concept of hospice has been evolving in Europe since the 11th century. Then, and for centuries thereafter in Roman Catholic tradition, hospices were ...
