Perhaps no aspect of mind is more familiar or more puzzling than consciousness and our conscious experience of self and world. The problem of consciousness is arguably the central issue in current theorizing about the mind.

Consciousness (Stanford Encyclopedia of Philosophy)

Philosophy of mind is a branch of philosophy that studies the nature of the mind. The mind-body problem is a paradigm issue in philosophy of mind, although other issues are addressed, such as the hard problem of consciousness, and the nature of particular mental states. Aspects of the mind that are studied include mental events, mental functions, mental properties, consciousness, the ontology ...

The hard problem of consciousness is the problem of explaining how and why sentient organisms have qualia or phenomenal experiences—how and why it is that some internal states are felt states, such as heat or pain, rather than unfelt states, as in a thermostat or a toaster. The philosopher David Chalmers, who introduced the term "hard problem" of consciousness, contrasts this with the "easy ...

Journal of Consciousness Studies 2(3):200-19, 1995. This is the paper where I introduced the "hard problem" of consciousness. I distinguish between the easy problems and the hard problem, and I argue that the hard problem eludes conventional methods of explanation.

Consciousness — David Chalmers

Phenomenology is the study of structures of consciousness as experienced from the first-person point of view. The central structure of an experience is its intentionality, its being directed toward something, as it is an experience of or about some object.
