In project management a project consists of a temporary endeavor undertaken to create a unique product, service or result. Another definition is: a management environment that is created for the purpose of delivering one or more business products according to a specified business case. Projects can also be seen as temporary organization. Project objectives define target status at the end of ...

The City Circle Line (Danish: Cityringen) or M3 is a future loop line of the Copenhagen Metro. It has been claimed by COWI A/S that the City Circle Line is the largest construction project to have taken place in Copenhagen during the last 400 years. Upon its completion, the network's total length shall be 43km and have 17 stations. Its completion has been anticipated to occur around the summer ...

To describe the level of radiation in seawater samples, we use Bequerels (Bq), which equal the number of radioactive decay events per second, and report this number per cubic meter (1,000 liters or 264 gallons) of water. A typical sample will likely contain less than 10 Bequerels per cubic meter (Bq/m<sup>3</sup>) from cesium-137, thousands of times less than the radioactivity produced by naturally ...
